

To our valued Clients,

In light of the recent outbreak of the Coronavirus, we are following the CDC recommendations and taking extra precautions to ensure that our clients, patients, and staff remain safe and healthy during your visit to our practice. We plan to remain open and are available for all of your veterinary care needs. We are closely monitoring the situation as it pertains to our community.

At APCNW, we have put a policy into place which includes: Team members washing their hands for twenty seconds after each appointment, Disinfecting our chairs and door knobs after each appointment, getting our clients into our exam rooms and out of our lobby ASAP, and disinfecting our front and back door handles hourly.

We are here to work together and accommodate our clients and patients to the very best of our ability. Please call our office at 210-684-2273 if you have any questions or concerns, we are happy to help!
